NEW BUILDINGS.

Two Story Brick on Main and Pine. Four Story Brick on Pearl and Forsyth.

A two story brick store house will soon be erected on the corner of Main and Pine streets, on the site of the old meat market. The store house will be built for Mr. Thomas A. Langham. The plans have been drawn by Architect D. P. Kaufman, and bids for putting the building will be received Monday.

A two story frame residence for Mr. S. K. Stone will soon be built on Magnolia avenue. The plans are being made by Architect D. P. Kaufman. Bids will be received in a few days, after which the contract will be let and work commenced at once.

Mr. Thomas Brown will in a few weeks begin the construction of a four story brick and steel building on the southwest corner of Pearl and Forsyth streets. The building will be 105x82, fronting on Pearl. The foundation walls will be twelve feet in depth resting on cypress timbers. The foundation will be laid for a five story building, and it may be determined later to build to this height. The frame will be of steel. The present plans provide for a wing extending 100 feet back on Forsyth and 50 feet in width which if constructed, will give a frontage on Forsyth street of 182 feet. This building, as at present contemplated, will cost about \$50,000.

Mr. Brown owns some of the frame buildings on Forsyth. He is from Roseville, O., and is cashier of the First National Bank at that place. The plans of the building were drawn by Mr. W. T. Mills, architect.
